

Name \_\_\_\_\_

Class \_\_\_\_\_ Date \_\_\_\_\_

## College Interview

**Directions:** You will interview two people who have graduated from a college/ university or a technical school. I would recommend taping the interview (with the person's permission, of course) so that you may focus on the interview, instead of taking notes. Please get a picture of each person and send both to your gmail. Instructions for the photos and interview responses will be given on a later date. Be sure to thank the people you interviewed and also get a mailing address.

1. Why do you think it is important to attend a college or a technical school?
2. When choosing a college or a technical school, what do you think are the most important qualities to look for in a **campus**?
3. When choosing a college or a technical school, what do you think are the two most important qualities to look for in the **academic program**?
4. When choosing a college or a technical school, what do you think are the two most important **non-academic opportunities** that should be available?
5. What is the best advice you have for someone who is planning to attend a college or technical school?
